

## **2020 Loan Oversight Committee Report**

Over the past 12 months there has been a steady increase in lending to our community with loans now in excess of £7.5million. The introduction of Plus Loans expands the affordable lending options our Credit Union can offer our members. Whether it's a chat with a familiar face in the CU office, a loan application over the phone or via the website, we aim to offer the flexibility for affordable lending in our community.
