

2020 Risk Report

This has certainly been a challenging and stressful year for you and your families.

Uncertainty has been the predominant word in recent times and has been applied to everything from the economy to healthcare.

It is in these uncertain times that the risk function within Crossmaglen Credit Union can provide assurances to the members that all risks are identified, and steps taken to mitigate those risks.

We will always listen to our members and continue to provide a first-class service; we will also continue to manage the risks of an uncertain economy and the members will remain to be our priority.

Andrew McConville - Director Risk Function
